

MSB Japan Site

Roles & Permissions

Overview

The application uses a granular permission-based system. Users are assigned one or more roles, each granting a set of permissions. All admin and member actions are enforced server-side.

Roles

Role	Description
Administrator	Full access to all system functions
Editor	Content lifecycle management (create through publish)
Translator	Read and edit content only (supports bilingual workflow)
Event Coordinator	Manage events, registrations, and contact messages
Commerce Manager	Manage products, orders, inventory, and view donations
Analyst	Read-only access to analytics, content, and donation data
Member	Access to the member portal (study materials, announcements, events)

Permission Matrix

Permission	Admin	Editor	Translator	Event Coord.	Commerce Mgr.	Analyst	Member
Content: View	Yes	Yes	Yes	-	-	Yes	-
Content: Create	Yes	Yes	-	-	-	-	-
Content: Edit/Delete	Yes	Yes	Yes	-	-	-	-
Content: Review	Yes	Yes	-	-	-	-	-
Content: Publish	Yes	Yes	-	-	-	-	-
Events: Manage	Yes	-	-	Yes	-	-	-
Registrations: Manage	Yes	-	-	Yes	-	-	-
Contacts: Manage	Yes	-	-	Yes	-	-	-
Donations: View	Yes	-	-	-	Yes	Yes	-
Commerce: Manage	Yes	-	-	-	Yes	-	-

Permission	Admin	Editor	Translator	Event Coord.	Commerce Mgr.	Analyst	Member
Social Media: Publish	Yes	-	-	-	-	-	-
Analytics: View	Yes	-	-	-	-	Yes	-
Users: Manage	Yes	-	-	-	-	-	-
Settings: Manage	Yes	-	-	-	-	-	-
Member Portal: Access	Yes	-	-	-	-	-	Yes

What Each Role Can Do

Administrator

- Everything below, plus:
- Manage users (create, assign roles, reset passwords, delete)
- Manage site settings and redirects
- Publish to social media
- Grant/revoke member access
- Manage member resources, announcements, and books

Editor

- Create, edit, delete, review, and publish content (blog posts, teachings, articles)
- Supports the bilingual content workflow (Japanese/English)
- Content goes through statuses: Draft -> In Review -> Approved -> Scheduled -> Published (or Archived)

Translator

- View and edit existing content (no create, review, or publish)
- Designed for translation work on bilingual content without publishing authority

Event Coordinator

- Create, edit, and delete events (including event series, venues, pricing)
- Manage event registrations and attendee lists
- View and respond to contact form submissions

Commerce Manager

- Create, edit, and delete products (with variants and inventory)
- Manage orders (update status, add notes)
- Adjust inventory levels
- View donation records

Analyst

- View analytics dashboards
- Read content (no editing)
- View donation data
- Read-only access for reporting purposes

Member

- Access the member portal at /members
- Browse study materials (articles, PDFs, audio, video, practice texts)
- View member-only event information and register
- Read announcements and community updates
- Manage their own account settings

Access Areas

Area	Who Can Access
Public website (/ , /about, /blog, /events, etc.)	Everyone (no login required)
Admin dashboard (/admin)	Any user with at least one admin role
Admin > Users	Administrator
Admin > Content	Administrator, Editor, Translator
Admin > Events	Administrator, Event Coordinator
Admin > Products & Orders	Administrator, Commerce Manager
Admin > Contacts	Administrator, Event Coordinator
Admin > Donations	Administrator, Commerce Manager, Analyst
Admin > Social Media	Administrator
Admin > Analytics	Administrator, Analyst
Admin > Settings & Redirects	Administrator
Admin > Member Resources & Announcements	Administrator
Member portal (/members)	Member (or Administrator)

Notes for Review

- Users can hold multiple roles (e.g., an Event Coordinator who is also an Editor)
- Sign-in requires at least one role to be assigned -- users without roles cannot log in
- The Member role is separate from admin roles. A member does not automatically have admin access, and admin users do not automatically have member portal access (unless they are also Administrators, who have all permissions)
- Social media publishing is currently restricted to Administrators only. If another role should have this, a new mapping would be needed
- Content publishing (member resources, announcements, books, centers) is restricted to Administrators. Editors can publish blog/teaching content but not member portal content
